3 Useful Tips

1. Introduction

The iTrader program is a comprehensive all-in-one trading tool which enables a user to view real-time futures/options information; place cancel & change orders; monitor order status; check portfolio and send settlement instructions.

1.1 User Login

a. Open the Internet Explorer or Netscape Communicator, you can go to the **[User log in screen]** of iTrader (Diagram 1).

b. Key in your user name and password and then you log in the iTrader to enter the **[All-in-one User Interface]** (Diagram 4).

c. After reading the detail in the Disclaimer Box, if you agree with it click “Yes’ to proceed or if not click “No” to exit. If the wrong password is entered, a box will pop up as in Diagram 3.

Simply click on the news headlines to display the contents.

2.5 Order Entry Window

2.5.1 Limit Orders

1. Click on the symbol/ price/ and quantity Boxes and type in the corresponding numbers in the Order Entry Window (eg. HSIJ6) to submit orders to the Exchange (Diagram 15).
2. Alternatively you can click on the 5 bid/ask queues with the market data feed, then the corresponding Contract no. and prices will be duplicated to the order entry boxes, user only need to fill in the quantity.
3. When all three boxes (symbol, price, qty) have been filled and the order type is shown as <Limit> and <Normal>, you can press the **<Buy>** or **<Sell>** button, and then enter the password, then the order confirmation box will pop up automatically (Diagram 16). Click on the **<Submit>** button and the order will be sent to exchange directly and the order details will be displayed in the Order Book. Alternatively press the **<Cancel>** button if you decided not to proceed further. If the wrong trading password is used, no orders will be submitted.

Diagram 15 Order Entry Window

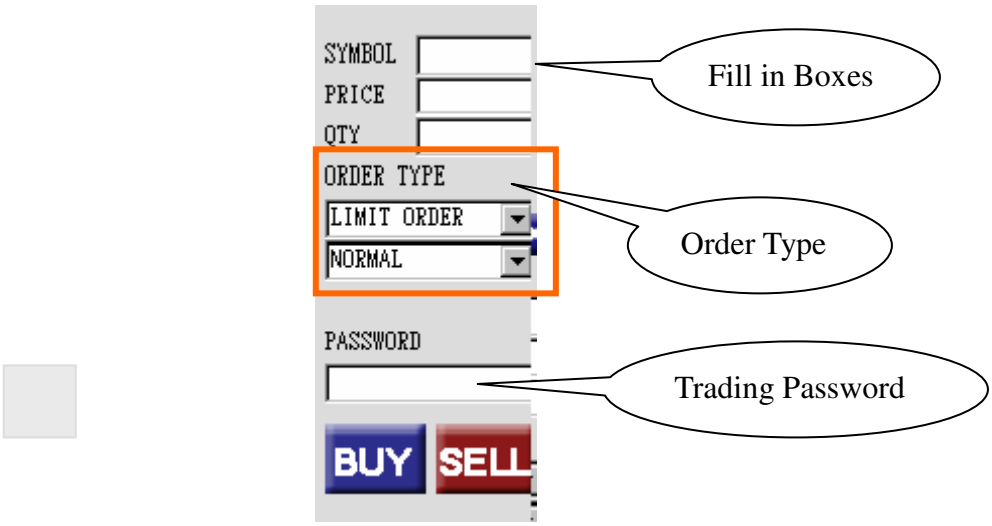

Diagram 16 Order Confirmation Box

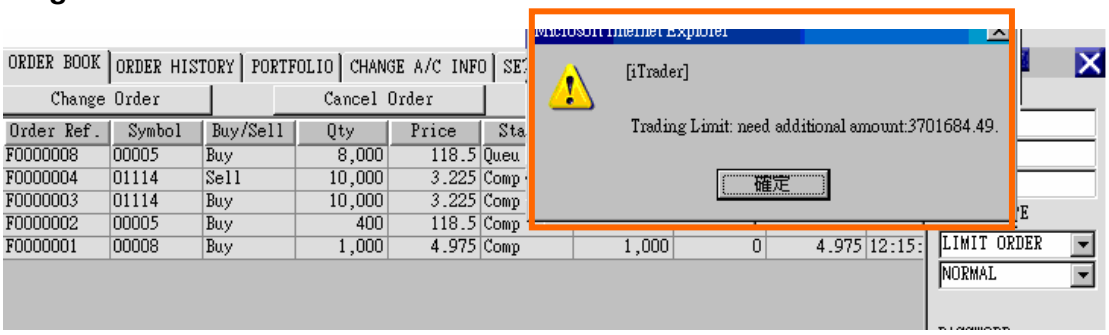
Over the Limit Orders

If the order exceeds the credit limit (Diagram 18), a message dialog box will pop up automatically showing insufficient balance/credit and the amount of additional credit. This order will not be accepted and will not be shown in the order book.

Diagram 18 Credit Limit Exceeded



2.5.2 Stop Limit Orders

Select the <Stop Order> from the Order Type Pull Down menu at the **Order Entry Window** (Diagram 19)**.** Then enter Account, Symbol, Limit Price and Quantity and the Stop Price for the order. Click on the BUY or SELL button and the SUBMIT button to send the order into the system.

The order will be shown as Pending in the **Order Book Window** with a remarks showing STP and the stop price as specified (Diagram 20).

Note: For sell orders, limit price must be set as lower than the stop price and the stop price must be set as lower than the nominal price.
For buy orders, limit price must be set as higher than the stop price and the stop price must be set as higher than the nominal price.

The system will send the Stop Limit Order to the exchange for matching upon the nominal price reaching the specified stop price.

Diagram 19 Stop Limit Order Entry for Futures/Options

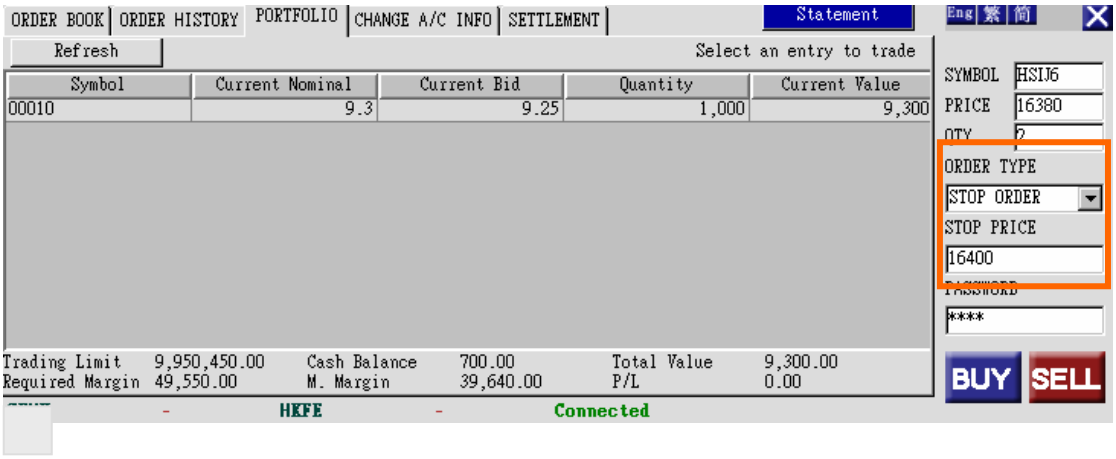


Diagram 20 Stop Limit Order Pending for Execution

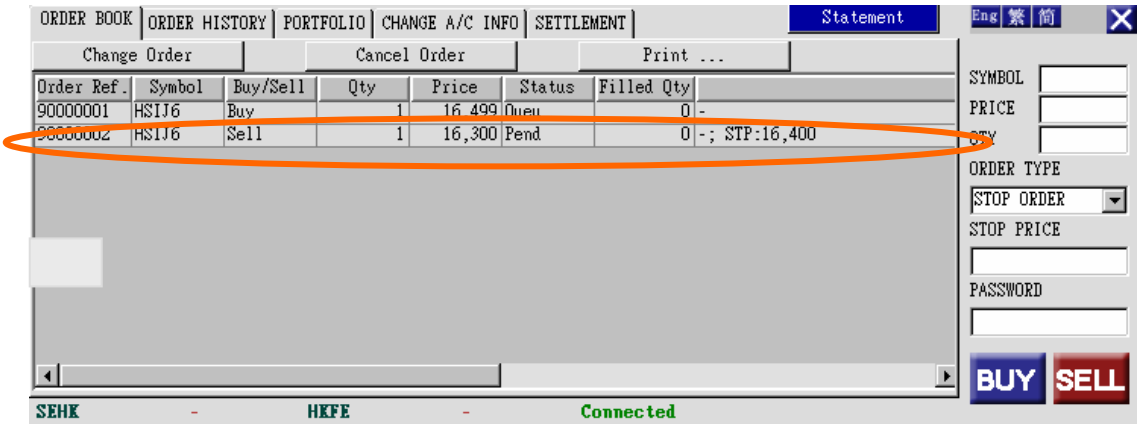
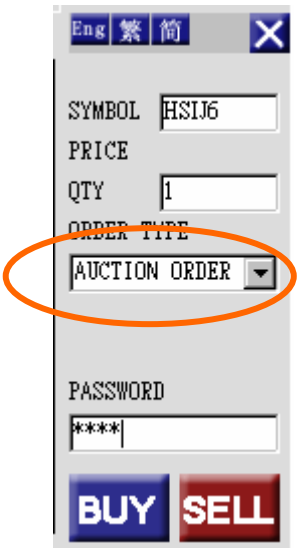


2.5.3 Auction Orders (AO)

Diagram 21 Enter Auction Orders



Select the <Auction Order> from the Order Type Pull Down menu at the **Order Entry Window** (Diagram 21)**.** Then enter Account, Symbol and Quantity for the order. Click on the BUY or SELL button and the SUBMIT button to send the order into the system. The order will be marked with AO in the "Notes" column in the order book.

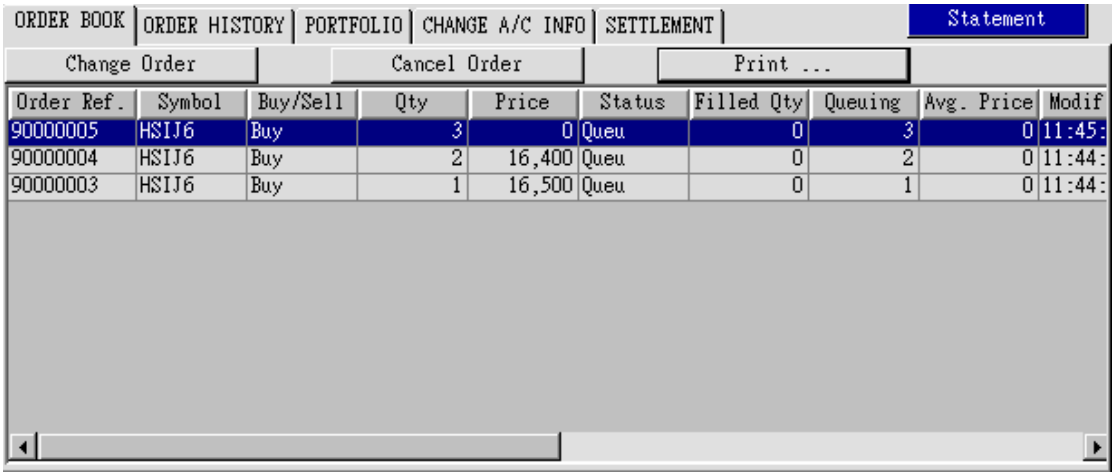
2.6 User Information Window

2.6.1 Order Book

2.6.1.1 Overview

[Order Book] can be used as user's electronic order book. After submitting the orders, the order details will be shown in the **[Order Book]** as below (Diagram 24):

Diagram 24 Order Book



Order Ref.	Symbol	Buy/Sell	Qty	Price	Status	Filled Qty	Queuing	Avg. Price	Modif

Order Ref. / Symbol / Buy/Sell / Qty / Price / Status / Filled Qty / Queuing / Avg. Price / Modified Time / Curr / Created Time / Via / Note

Order Ref.

This is a ref no. generated by the system. Quote and refer to this number for any queries.

Symbol

Contract code of the order

Buy/Sell

Buy or Sell Order

Qty

Order Quantity

Price

Order price

Status

Orders will have one of the following status. For orders with a Pend status for a long time or Inac status, cancel the order and call the customer hotline if there is any queries.

Part	Order Partially Completed
Comp	Order wholly Completed
Pend	Order stored in the system and not yet sent to the Exchange
Queue	Order queuing in the Exchange
Inac	Inactive
Canc	Order Cancelled

Filled Qty

If this is a partial or completed order, this column will show the quantity filled.

Queuing

Order outstanding quantity in the Exchange.

Avg. Price

The average filled price of the order.

Modified Time

The latest time when order is modified.

Curr

Set as HKD for default

Created Time

Time when order accept by system.

Via

This order book shows all orders placed by the client via different channels:

I for orders placed via Internet and

C for orders placed through telephone (Account Executives).

Note

Order Type: FAK; FOK and STP (for stop order)

Any message received from the Exchange (eg. Warning messages for price deviation)

NOTE: All Inac Orders should be cancelled immediately and the user should call customer hotline for order details if in doubt.
